Fast And Reliable Assembly And Machining Service

Rittal Milling Centre

Rittal provides in-house access to the superior Rittal Perforex Milling machine offering an extensive range of value added modifications such as:

- Drilling, milling and tapping of metric threads on all fascias of enclosures either flat or preformed.
- Machining of all standard materials such as mild steel, stainless steel and aluminium, as well as plastics such as fibreglass and polycarbonate
- Holes, threads and cutouts can be created on mounting plates, doors, sidewalls, gland plates and the enclosure housing
- Typical cut-outs include fan/filter, A/C units, push buttons and gland plate entry

Rittal works with approved customer drawings (DWG and DXF) to provide solutions for small and large scale projects.
